PRODUCTION LEVEL TRAINING IN BUILDING & INTERIOR DESIGNING

G-TEC EDUCATION

KANHANGAD

ADBA

ADVANCED DIPLOMA IN BUILDING DESIGN AND ANIMATION

Duration: 8 Months/288 Hours

Objective :

A specular design and animation course embedded in building designs.Enthralling beautiful Interior Design professionals who design interior spaces, residential homes, shops, banks, hotels, office etc. and meet demands of rapid development are the need of the hour. Most of the professionalsare being hired from other countries in the wake of shortage of such consultants. The objective of this course is to train profeesionals to be able to help, support and cope up with growing challenges and not to rely on foreign consultants.

These professionals can become high profile complementary figures in important design organizations or develop their own professional studios. Building simply animated through soft touch fingers
